

MOHAMMAD ABDULLA

SOFTWARE ENGINEER

Profile

I'm a versatile **Software Engineer and an AWS Solutions Architect** who worked in healthcare systems and smart shopping carts. With a knack for problem-solving and a passion for innovation, I thrive in dynamic environments. I excel in developing secure, scalable software solutions and architecting cloud-based architectures on AWS. My strong communication skills and commitment to continuous learning drive me to deliver impactful results and stay ahead in the ever-evolving tech landscape.

Experience

- | | |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2023 - Present | Wowly
Software Engineer, Amman
WOWLY is an amazon-go like project, where the customers in the shopping malls can start and finish shopping on the trolley including checkout, i built a complete smart POS solution, going from admin panel & multi level permissions/roles & dashboards, to the pos system on the cart & Visa machine integration & data synchronization to github actions and CICD's and building a complete reliable & scalable AWS infrastructure. |
| 2020 - 2023 | Nixpend
Software Engineer, Amman
In Nixpend i worked on building a healthcare app integrated with ERP system to manage all patients & practitioners procedures & insurance & accounting. |

Interests

Kali Linux & Penetration Testing

I'm not a PenTester nor a kali linux wizard, but I'm really interested in professionally exploiting vulnerabilities of a computer system.

Skills

Frontend

Angular	<div><div></div></div>
CSS frameworks (bootstrap/tailwind)	<div><div></div></div>
React	<div><div></div></div>

Backend

Nodejs/Express	<div><div></div></div>
Nosql (Mongo)	<div><div></div></div>
SQL(mysql/postgresql)	<div><div></div></div>
ORM (SEQUELIZE)	<div><div></div></div>

Cloud

AWS Solutions Architect	<div><div></div></div>
-------------------------	------------------------

Linux & Containerization

Worked on setting up sql databases and managing containerized applications using docker on linux	<div><div></div></div>
--------------------------------------------------------------------------------------------------	------------------------

Programming Languages

Python/Django	<div><div></div></div>
Javascript	<div><div></div></div>
Typescript	<div><div></div></div>

Education

2017 - 2021	Computer Systems And Networks Engineering Al-balqa Applied University, Alzarqa .
2016 - 2017	AL-naphees High school alnaphees, amman .
