MOHAMMAD ABDULLA

SOFTWARE ENGINEER

Profile

I'm a versatile Software Engineer and an AWS Solutions Architect who worked in healthcare systems and smart shopping carts. With a knack for problem-solving and a passion for innovation, I thrive in dynamic environments. I excel in developing secure, scalable software solutions and architecting cloud-based architectures on AWS. My strong communication skills and commitment to continuous learning drive me to deliver impactful results and stay ahead in the ever-evolving tech landscape.

Experience

2023 - Present   **Wowly**
Software Engineer, Amman
WOWLY is an amazon-go like project, where the customers in the shopping malls can start and finish shopping on the trolley including checkout, i built a complete smart POS solution, going from admin panel & multi level permissions/roles & dashboards, to the pos system on the cart & Visa machine integration & data synchronization to github actions and CICD's and building a complete reliable & scalable AWS infrastructure.

2020 - 2023   **Nixpend**
Software Engineer, Amman
In Nixpend i worked on building a healthcare app integrated with ERP system to manage all patients & practitioners procedures & insurance & accounting.

Interests

Kali Linux & Penetration Testing
I'm not a PenTester nor a kali linux wizard, but I'm really interested in professionally exploiting vulnerabilities of a computer system.

Skills

Frontend
Angular
CSS & CSS frameworks
React

Backed
Nodejs/Express
Nosql (Mongo)
SQL(mysql/postgresql)
ORM (SEQUELIZE)

Cloud
AWS Solutions Architect

Linux & Containerization
Worked on setting up sql databases and managing containerized applications using docker on linux

Programming Languages
Python/Django
Javascript
Typescript

Clean Code & SOLID Principles
Writing clean, maintainable code and applying SOLID principles for scalable software architecture.

Education

2017 - 2021   **Computer Systems And Networks Engineering**
Al-balqa Applied University, Alzarqa
.

2016 - 2017   **AL-naphees High school**
alnaphees, amman
.

Volunteering

Member of CNE | BAU University
During the university i joined the CNE where we helped other computer engineering students in the studying curriculums as well as guiding students in their freshman year and other activities.
